

How do I access the DBS app?

Visit the DBS website at www.dbs-lifemark.com. A pop-up window will appear at the bottom, asking you if you'd like to add to your home screen.

When you do, you'll be prompted through adding to home screen.

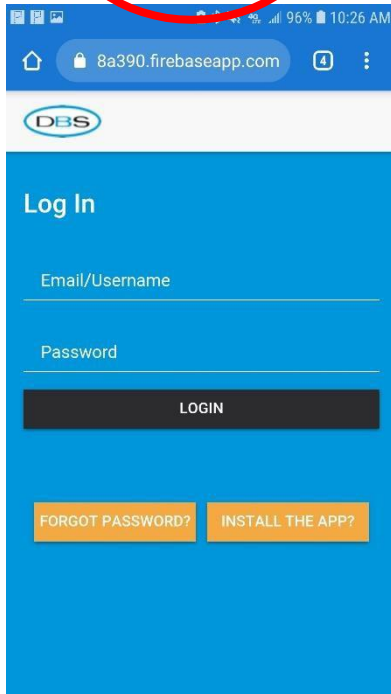

How do I login?

When you click to add to your home screen, you'll be prompted to login.

Advisors should use the **SAME LOGIN AND PASSWORD** used for our website.

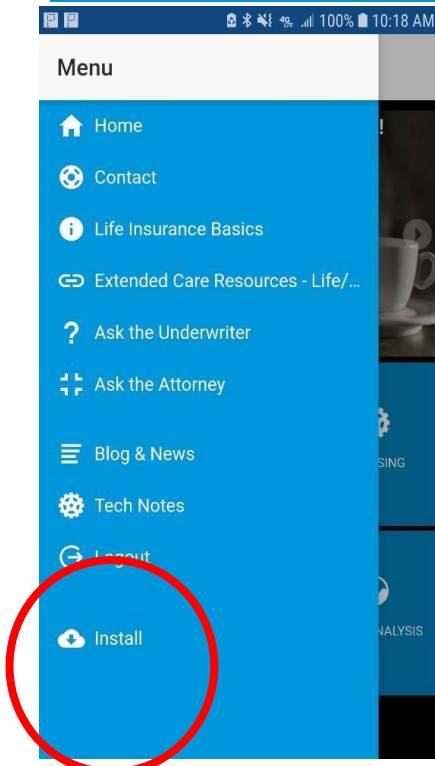

This is a **ONE TIME PROCESS** that you shouldn't have to repeat.

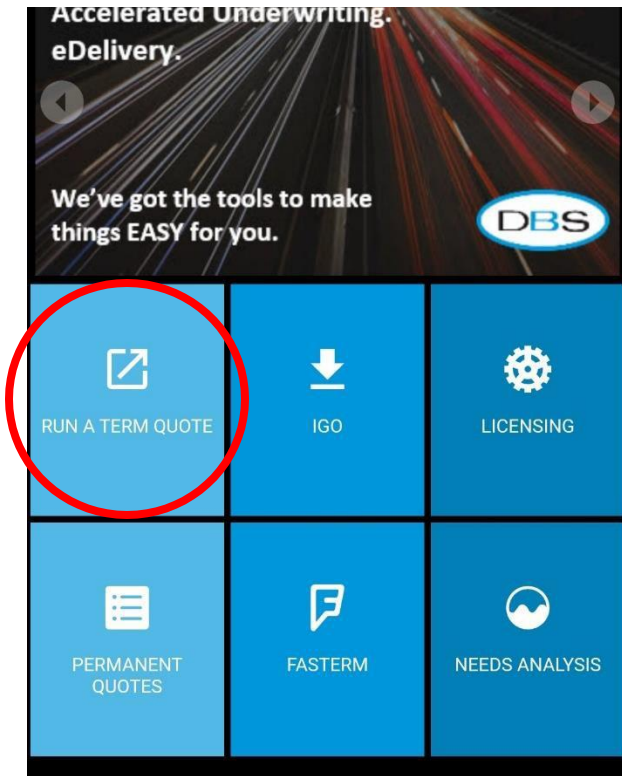

What if I'm already on the app? How do I add to my home screen then?

If already on the app, visit the menu in the upper left-hand corner and click on Install.

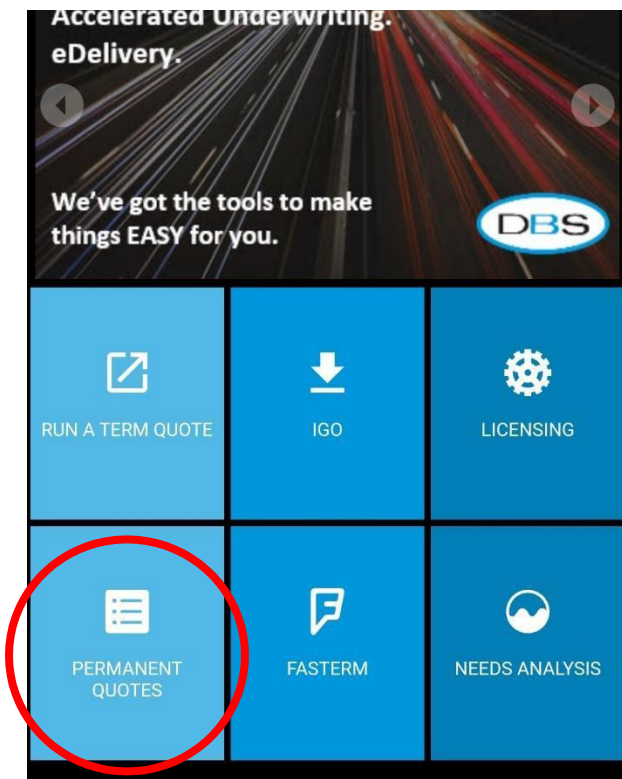

Use this menu to access all the other great tools and information that isn't found on our home screen, such as the "Ask the Underwriter" and "Ask the Attorney" contact forms, our blog, and much more!

How do I run a quote and drop a ticket?

Click on the button "run a term quote" and you'll be redirected to our term quoter. Here, you can get a quote, save a quote, retrieve your saved quotes and even drop a ticket on your mobile device! Since you're logged into the system, anything you do on your mobile device can also be accessed back at the office!

What about Permanent Quotes?

Click on "Permanent Quotes" to retrieve an account-specific form. Complete the form with the information about your client, and once you submit, it will automatically be routed to your dedicated Case Design Analyst.
